Labelling Matters

Albion Systems Ltd are suppliers of full colour printed labels, plain labels, thermal transfer ribbons, label printers and labelling software.

Albion Systems Ltd offer some of the best prices available. Our quality and speed of service are second to none. With over 20 Years experience in our field, you can feel confident in putting your **LABELLING MATTERS** in the hands of the experts.

We have vast experience in this sector providing labels that meet manufacturers and customers needs.

Product spillage resistant labelling combined with label durability and materials that meet the BS5609 standard.

Using state of the art equipment, labels and tags can be supplied printed up to eight colours plus U.V. varnish.

Materials

We offer a wide range of materials from papers through to specialised materials such as polyester, PP, PE, Tamper Evident Materials and Thermal Papers.

Adhesives

Permanent, removable, re-positionable, deep freeze and water removable are all available to meet the demands of your specific application.

Variable information printing/ribbons

To cater for the rapidly growing thermal transfer market we carry a range of plain labels and ribbons in stock in the most popular sizes and roll make-up. Using our in depth knowledge of thermal transfer ribbons we can match labels and ribbons together to optimise quality and cost effectiveness.

Biodegradable labels

Albion are also working with the latest Biodegradable products on the market to help create a greener environment for the packaging industry.
